

# Keith Burgie

207-294-2495 | [krburgie@gmail.com](mailto:krburgie@gmail.com) | [GitHub](#) | [Portfolio](#) | [Blog](#) | [LinkedIn](#)

Experienced front-end web developer specializing in standards-compliant, responsive websites, emails and applications through the use of HTML5, CSS3, JavaScript, React JS and Ruby on Rails. Recently supplemented knowledge with professional training in software engineering. Additional skills in UI/UX, design fundamentals & interpersonal communication.

## TECHNICAL PROJECTS

### Medspace - [GitHub](#) | [Demo](#)

*A project management app for prospective medical students.*

- + Built a Ruby on Rails API to store and serve authenticated user data
- + Built a React front-end for a slick and responsive user experience
- + Implemented to-do lists and essay writing area with seamless CRUD
- + Used SCSS modules for component styling and easy future updates

### The Pancake Game - [GitHub](#) | [Demo](#)

*A click-based game where you race the clock to flip circular foods.*

- + Built a Ruby on Rails and Postgres backend to store game sessions and settings.
- + Built a high-touch React front-end with CSS animations.
- + Taught my project partner lots about file architecture, Git, and CSS.

### Cannabis 100 Summit Website - [Demo](#)

*Marketing website for national, high-dollar investor conference.*

- + Received brand assets and discussed project goals with client
- + Designed and built website with HTML, CSS and vanilla JavaScript
- + Worked remotely, communicating with client mostly by email
- + Completed project independently on time and under budget

## TECHNICAL SKILLS

JavaScript (ES6+), React, HTML, CSS/Sass/Less, Bootstrap and other frameworks, Ruby on Rails, SQL, Postgres, SEO

## EMPLOYMENT HISTORY

### Freelance Web Developer, Richmond / Boston / San Francisco / Raleigh

Web Developer, *September 2016 - Present*

- + Build websites, templates and tools for clients that include large businesses, banks, non-profits, and universities.
- + Build and maintain client relationships through dedication and high quality deliverables.
- + Worked on-site and remotely during this time, with periodic visits to clients on both coasts.
- + Exposure to industries and systems has shown that I can learn, adapt and solve problems.

### Timberland, Stratham, NH

Interactive Developer, *June 2014 - September 2015*

- + Front-end development leader on a 10 person team of designers and developers.
- + Served as an advocate and expert on responsive design and front-end performance.
- + Built reusable components for Adobe Experience Manager CMS that are still in use today!

### SchoolDude, Raleigh, NC

Front-End Web Developer, *June 2012 - June 2014*

- + Converted WordPress website to a responsive design.
- + Later, built and implemented an all-new website on DNN CMS.
- + Second year here was as a contractor, remotely building the new website.

## EDUCATION

### Flatiron School - 2019
