EXPERIENCE

Dude Solutions | Front-End Web Developer **2012 – 2013 & Oct. 2017 – Present**

- Present: Planned and built a large document library using [DNN Liquid Content](#) that teammates use as a CMS for downloadable documents and blog posts. The work was showcased at a recent national conference by the company that makes the product.
- In 2012-13: Member of a three-person team that planned, designed and implemented a major responsive website redesign and re-platform for SSO integration with the company's SaaS product.

Freelance Web Developer **2013 – October 2017**

- Responsive web development, web hosting, domain management, site administration.
- Web design from planning to completion, including coding, SEO and traffic reporting.
- Clients included Timberland, The American Meteorological Society, The University of California (San Francisco), and my current employer, Dude Solutions.

The Timberland Company | Interactive Developer **June 2014 – Sept. 2015**

- Front-end development leader. Advocate, advisor and expert on responsive design.
- Built interactive HTML/CSS/JS websites for product marketing and in-store experience.

Fuel TV | New Media Assistant **2010 – 2011**

Racer X Illustrated | Online Editor **2008 – 2010**
